Our new offices are on the 11th floor of the Monarch Tower located in the prestigious Buckhead area of Atlanta. We are anchored by the Ritz Carlton hotel and across from Phipps Plaza mall. Please stop by and visit us if you are in the area. September Special Offer (free technical support incident w/purchase) Special offer! Buy SuperUpdate Express, SuperUpdate Pro, or SuperUpdate Advanced before September 30 and get a technical support incident - a \$150 value - absolutely free! Try SuperUpdate today. For more information please visit <http://www.hannonhill.com> Technology Tip How to use scripting language code (ASP, PHP, JSP, ColdFusion, Perl) with SuperUpdate SuperUpdate works great in conjunction with other scripting languages. The key is to not put scripting code in the editable regions. Put all the dynamic code outside the editable regions and let the business authors make changes to the pure HTML. For example: Scripting code can go here and won't be changed <!-- #BeginEditable "content" --> Pure HTML content goes here <!-- #EndEditable --> Scripting code can go here and won't be changed About Hannon Hill Corporation Based in Atlanta, Georgia, Hannon Hill Corporation develops award-winning content management software for small to medium-sized businesses.
