Makers of the Award-Winning Cascade Server content management software

Newsletter for 2003, Vol. 06 - June

Features This Issue ZapEdit Released SuperUpdate 3.1 Released Partners Extranet June Special Offer (Free Installation) Technology Tip ZapEdit Released ZapEdit, the fastest and easiest way to update a website, was released by Hannon Hill on May 19th. Completing its suite of content management solutions, ZapEdit fills the lower end of the content management landscape. ZapEdit integrates immediately with any website in a shared or dedicated hosting environment. Quickly edit a page in a website through a web browser by logging into the file manager, clicking on the page to update, and clicking on the content to edit. In the WYSIWYG (What-you-see-is-what-you-get) editor users may update text, formatting, images, hyperlinks and more. ZapEdit is affordably priced at \$99/URL. For more information and to access an online demo, please visit our website. ZapEdit provides an ideal way for companies who may only need one license and on a shared server to update their website quickly and easily. The greatest feature of ZapEdit is its simplicity. Remember the special offer this month is free installation, so why not try ZapEdit today? SuperUpdate 3.1 Released SuperUpdate 3.1 was released on June 2nd, 2003. Included in the new version is a WYSIWYG editor for Mozilla 1.3+. This new feature makes SuperUpdate fully functional for users favoring the Mac. SuperUpdate 3.1 is available as a free upgrade and supports Mozilla 1.3+ on all major operating systems at no additional charge.
