Cascade Server 3.1 Scheduled for End of March

We are pleased to announce that Cascade Server 3.1 will be available on Thursday, March 31, 2005. The upgrade includes numerous enhancements and bug fixes. The three major enhancements include:

- Metadata Sets providing for more extensible dynamic metadata fields that can be attached to pages, files, folders, and blocks
- Structured content import providing for importing of XML content that is mapped to a data definition for a new page
- Enhanced un-publish feature to provide more flexibility in removing previously published content
