Cascade Server 3.5 Available with More Features

The big news this month was the release of Cascade Server 3.5. Released on July 1, Cascade Server now offers the following new features not previously mentioned:

- Automatic scheduling for publish sets
- New workflow trigger for publish sets
- Additional data definition options including a new calendar type
- Improved button filtering based on user access rights

New Team Member

Zack Bailey is the newest member of our development team. He's an honors graduate of the University of North Carolina at Chapel Hill, and comes to us with a degree in Computer Science and extensive experience in C++ and Java. An Atlanta native, Zack is thrilled that Hannon Hill has brought him back to his home town.
