2006 Cascade Server User's Conference a Success

On Monday, September 25th, 2006, Hannon Hill Corporation held its First Annual 2006 User's Conference. The turnout was amazing – 98% of the clients expected to attend the event were present for a fun-filled day of learning and networking. The various track sessions, led by David Klanac, Collin VanDyck, Sean Sawyer, and Amy Liu (some outstanding Hannon Hillians), focused on Cascade Server 4.x, Web Services, Advanced XSL training, and a case study on one of our clients, Servigistics, respectively.

Lunch was followed by a lively roundtable that highlighted client feedback. Some toured Atlanta's Georgia Aquarium while others stayed engaged in an enlightening Hands-On session led by Collin VanDyck and Zach Bailey. For those of us who attended dinner,

we made the trek down to The Bucket Shop Café for a relaxing, pleasurable evening with friends.

New Team Members

Please welcome the following new Hannon Hill team members:

- Elizabeth Starkey is our new Video Content Producer. She will be leading our rich media initiative, producing podcasts, vidcasts, and screencasts for training as well as thought leadership. Originally from Florida, Elizabeth is a graduate of the Atlanta College of Art with a degree in digital video production.
- Jeremy Price joins our support staff and will be working on QA and pre-sales integrations. An Atlanta native, Jeremy holds a bachelor of science degree in computer science from Southern Polytechnic State University.
